

Technical data sheet

102070

Tradename:

LDPE ZIPLOCK-BAGS
150x220x0,50mic
transparent, LD-Sign in flap

TARIC:

39 232 100 00

Polymer structure:

Low Density Polyethylen
extruded, PVC free

Storage conditions:

Cool and dry at 15-25 ° C, 50% rel. Humidity.
The best protection is provided by the original packaging.

Technical information:

Characteristics	Unit	Method	Result
total thickness	mic	DIN53370	50 +/- 10%
overall dimension	mm		150x220 +/- 3%
sealability			Thermosealing

These technical data are guidelines that are based on our knowledge and experience. They do not constitute an assurance of certain characteristics. The testing of the suitability of the packaging for the intended purpose is the responsibility of the packing company.

This applies in particular to changes in the quality of the contents which may arise as a result of interaction with the packaging or parts thereof.
